Photography - Gary Henry

Tracks 19, 20

Produced and Mixed by - Donnyl

Revised produced by Scott Davis

Package Design and Audio Remastering, April 2020

by Scott Davis & Rebecca Remington

Eyes In Tears

I've thought with longing about

All the days I love

How I want to see you

Get me out of here

I'm a just a real location

To all the days I love

Put this love in the year

Get me out of here

I must have been desperate

I must have been pretty far

I must have been desperate

I must have been pretty far

I must always bring down

All the days I love

But they never happened

Get me out of here

I think things're pretty strong

They're not like the rest

So in heart of matrimony

They're all finished the best

I must have been desperate

I must have been pretty far

I must have been desperate

I must have been pretty far

Oh to stand, oh to stand

Oh to stand, oh to stand

Oh to stand, oh to stand

To watch the group

To watch the group

Get me out of here (Oh watch the group)

Get me out of here (Oh watch the group)

Get me out of here

Only Lonely

Well I feel alright when it comes tonight

But when it comes the night

I'm only lonely, I'm only lonely

And if it doesn't feel right

When I tell you right, oh baby it's alright

I'm only lonely, I'm only lonely

Oh baby, wonder if we could just be

Oh baby, wonder if we could just be

And if it doesn't feel right

When I tell you right, oh baby it's alright

I'm only lonely, I'm only lonely

Oh well, I'm in baby, not in the front seat

Oh I want "Baby baby, how long must I wait?"

Oh baby, wonder if we could just be

Wonder could we just be

Wonder could we just be

Summer Solilo

I thought that love was never far

Well I was you baby

How that love is my addiction

I've thrown all my love away

When I was young I was so sure

I was so sure

I didn't believe, no I didn't believe

When I thought that we'd last this long

Always thought that things stopped the best

Long the best (oh baby)

When I was young I was so sure

I didn't believe, no I didn't believe

I didn't believe

I've been waiting for a sign from you

To come to earth to meet the human race

The human race (oh baby)

When I thought that we'd last this long

I don't know I was so sure

I can't not forget you

I know I had to let you down, oh

I know that it was you who

Did it with your hands

I've never known that you go, oh, oh

When I tell you right, oh baby it's alright

I'm only lonely, I'm only lonely

Oh baby, wonder if we could just be

Oh baby, wonder if we could just be

And if it doesn't feel right

When I tell you right, oh baby it's alright

I'm only lonely, I'm only lonely

Oh well, I'm in baby, not in the front seat

Oh I want "Baby baby, how long must I wait?"

Oh baby, wonder if we could just be

Wonder could we just be

Wonder could we just be

She

The more that we discover

The more life is her creation

Standing on stages, playing to the edge

The world's a hard place to live in

She has this way of conversation

Trying to read a conversation

Remember of the best

But what matter have I had

The world's a hard place to live in

Life can be lonely, life can be very real

Life can be something you wish you never had

The more that we discover

She has this way of conversation

Trying to read a conversation

Remember of the best

But what matter have I had

The world's a hard place to live in

Life can be lonely, life can be very real

Life can be something you wish you never had

The more that we discover

She has this way of conversation

Trying to read a conversation

Remember of the best

But what matter have I had

The world's a hard place to live in

Life can be lonely, life can be very real

Help me
Help only, only only
that only only you
Help only you
Can make or feel or otherwise
We're all going wrong
We're a sign for you surely
The way I change you there
Now I have the better view!
I say you bring us there
Help you are frank or really
So really really
However, a real danger
Something you're not to get on
The one warning a danger
To the possible still exist
The one warning a danger
Help you are frank or really
So really really
Help you, only you, only you, only you,
only better, or this night breathe
Condemning, in in the the
Dull back there or where
With eyes and together
Out of an eye, for a man
There you're really really
So really really

Help you, only you, only you, only you,
only better, or this night breathe
Condemning, in in the the
Dull back there or where
With eyes and together
Out of an eye, for a man
There you're really really
So really really

Help me
The one eye there
The you make or say
The one eye there
Oh help, you you you you make or say
Get to feel you, there you're not there
Get to feel you don't get up there
The just get to say, leave, I can't get by
Leave you're not there
There you're just a heart

Take it down
The better that you were people
That you were people who there
The better that you were people
Who have got something to show
The better not there to stand!
The there it is! I want that need
The better that something to health
That something you are back
Leave words that you heard
Leave there, leave there
Do I talk only, separately
Habit out
Leave words that you heard
Leave there, leave there
Do I talk only, separately
Dangers and way, the dangerous way
Take a chance, take a chance
Don't know why, don't know why

Take a chance, take a chance
Don't know why, don't know why

Have the better and the happy view
I just want to hold your hand
That not not not!
Oh make you happy just like your daily not!
Oh make you happy just like your money not!
Oh make you happy just like your daily not to in

Take the best
The one in that
The're not just a double line
Leave or stand or
Do I talk only, separately
Take off your coat
The not to the help your!
That a sign that
The don't have a hearing
I can't get, a line just, a line just!
The one in that
The're not just a double line
Leave or stand or
Do I talk only, separately
The one in that
The one in that
The one in that

Can't remember
The one always looking at us
There don't there
Something I have around
The're standing there
That because I all other
Don't come, I'm free
The that you're in and
That you don't get with us
Don't get on what my name is
I have what your name is
It's just a usual reminder
It's just a usual reminder

It's just a usual reminder
Don't come on to in
With all these things there
I was most between there
They're like some signs
The just want to get on
Get on with that
Do stop particularly
That you like my hand
Don't get on what my name is
I have what your name is

Don't be so thinking
It want to be something
I don't do with you
Must be something left for you
That be something I don't say
With you saying saying
That you go walking
Don't go walking out that there
Don't go go walking
There and then and then before
Don't go go walking
Don't go go walking out
What one I'd do what one I'd say
It's all here and before today
It's not a warning without you
Don't go on I can't have what to do
Don't go go walking
Don't go walking out that there
Don't go go walking
There and then and then before
Don't go go walking
Don't that there not out that there, in
But we're here through
There through the before!
Don't there one in
There to the before!

What I have that
What I have that things!
In an answer
The answer today!
There must be something I can say
With you saying saying
Do I want to get on someone one
Do you say another not that there one in
Stop that help

What
Saying in the dark
Thinking all the night
I want to be without
It's about daylight
Saying not a saying
My back is free
Thinking in frontward
Don't want to do a line
The just walking, walking
To end of all my friends
I want to want something one
They think to be long things
I think they're things to
Thinking in frontward
I'm counting on always
What to go to thinking, that one stop
The just walking, walking
The just walking, walking
They can't get enough one
It's a lot of matter
Don't be do do
The just if you just if
The just walking, walking
The just walking, walking
- What
- What

Doesn't get you (Discovered! Bonus)
 Doesn't get you there, guess what you were about to
 Doesn't get you there
 Doesn't make you feel that this time it's for real
 Doesn't make you feel
 Oh, just to get through to you
 Oh, something that we can do
 Tell you the meaning to
 Doesn't make you do anything / want you to do
 Doesn't make you do
 Doesn't make you say you want us to stay
 Doesn't make you say
 Oh, just to get through to you
 Oh, something that we can do
 Tell you the meaning to
 Doesn't get it right if it takes all night
 Doesn't get it right
 Doesn't make you say you want us to stay
 Doesn't make you say
 Oh, just to get through to you
 Oh, something that we can do
 Tell you the meaning to
 Doesn't get you
