

The Compact Disc Digital Audio System offers the best possible sound reproduction — on a small, convenient disc. Its remarkable performance is the result of a unique combination of digital storage and laser optics.

For best results, you should apply the same care in storing and handling the Compact Disc as you would with conventional records. No cleaning is necessary if the Compact Disc is always held by its edges and is replaced in its case directly after playing. If the Compact Disc becomes soiled by fingerprints, dust or dirt, it can be wiped (always in a straight line, from center to edge) with a clean and lint-free, soft, dry cloth. Never use a solvent or abrasive cleaner to clean the disc. If you follow these suggestions, the Compact Disc will provide a lifetime of listening enjoyment.

Be forewarned. Used to be an Experience meant making you a bit older. This one makes you wider. With the assistance of Mitch Mitchell (on drums) and Noel Redding (on guitar), Jimi Hendrix breaks the world into interesting fragments. Then reassembles it. You hear with new ears, after being Experienced. Those who've only seen him perform know only part of This Experience. They rave about a young man who plays a guitar in more positions than anybody before him. Now, this debut album will put the heads of Hendrix' listeners into some novel positions. Be forewarned.

Digital re-mastering by Joe Gastwirt, assisted by Dave Mitson using the Sonic Solutions NoNoise System, under the supervision of Are You Experienced? Ltd.

Are You Experienced marked the 1967 debut of Jimi Hendrix, universally acclaimed "rock's greatest guitarist!" With drummer Mitch Mitchell and bassist Noel Redding, Jimi laid down 11 outstanding tracks, including the perennial hits "Purple Haze," "Foxy Lady," "Hey Joe" and "Fire." Produced by Chas Chandler, engineered by Eddie Kramer, *Are You Experienced* spent an astounding 106 weeks on the Billboard charts, topping out at #5. This classic LP remains a best seller to this day.
