#### Using this record

This register records the admission details of patients admitted to the Kew Asylum. Patients' entries are arranged chronologically by date of admission. Each volume has an alphabetical index at the beginning to help you locate the page where a patient's entry can be found. Details recorded for each patient include their name, date of admission, admission number, date of last previous admission, age, marital status, occupation, previous place of abode, religion, and once examined by a medical officer, the form of mental disorder and state of physical health.

A patient's admission date can be used to locate the entries of patient histories in the Kew Asylum case books, **VPRS 7397/P1 Case Books of Female Patients** and **VPRS 7398/P1 Case Books of Male Patients**. To view these patient histories in the Victorian Archives Centre Reading Room, order the volume with the appropriate date range in the series you require.
