#### Downloading this file

This .pdf file contains **513** pages and is **14.6 MB** in size. As you are reading this, the file has started downloading to your computer. The file will take some time to download entirely.

To speed viewing of its contents use the 'Bookmark' feature of your .pdf viewer. The bookmarks jump to the beginning of each letter of the alphabet in the index, and the page numbers in the volume that the index entries refer to.

If you click on a bookmark link the viewer will jump to downloading that page. You can then view or print that entry. If you have captured the information you need, use the back button of the browser to stop the download of the file. You will need to wait until the complete file has finished downloading before you can save a copy to your local hard drive.

#### Using this record

This register records the admission details of patients admitted to the Kew Asylum. Patients' entries are arranged chronologically by date of admission. Each volume has an alphabetical index at the beginning to help you locate the page where a patient's entry can be found. Details recorded for each patient include their name, date of admission, admission number, date of last previous admission, age, marital status, occupation, previous place of abode, religion, and once examined by a medical officer, the form of mental disorder and state of physical health.

A patient's admission date can be used to locate the entries of patient histories in the Kew Asylum case books, **VPRS 7397/P1 Case Books of Female Patients** and **VPRS 7398/P1 Case Books of Male Patients**. To view these patient histories in the Victorian Archives Centre Reading Room, order the volume with the appropriate date range in the series you require.

Ancestry.com. *Australia Death Index, 1787-1985* [database on-line]. Provo, UT, USA: Ancestry.com Operations, Inc., 2010. Original data: Compiled from publicly available sources.

**Description:**

Vital records—records of births, marriage, and death—are the basic building blocks of family history research, and this database features some of the most comprehensive indexes available of historical Australian death records. These indexes were created by Australian registrar's offices after civil registration of births, marriages, and deaths became law in the mid 19th century. [Learn more...](#)
