

All Washed Up

All Washed Up / All washed up and / Ready to go
so / Go ahead and touch me / (I know you wanna) /
Body surf from / Head to toe / And now I'm gonna
touch you / (I know you wanna) / Get it up and
let it go / Hit me up I've gotta know / What you
want what you wanna do / In what I wanna do with
you / So go ahead and touch me / Touch me / (I
know you wanna) / (You know you wanna) / You've
touched my heart / You've touched my soul / Yeah
go ahead and touch me / (I know you wanna) / I
just thought / You'd like to know / Just how I'm
gonna touch you / (I know you wanna) / Let's get
down and get it on / Light me up and turn me on /
Listen now to what I say / The time has come
today now / Go ahead and touch me / Touch me / (I
know you wanna) / (You know you wanna) / We've
done it swinging round and round / (Oooh-oooh) /
I'm not afraid of what you'll do / I wanna touch
you too / Now go ahead and touch me / ... touch me
/ (I know you wanna) / (You know you wanna) / I'm
all wound up / I'm ready to go / So go ahead and
touch me / (I know you wanna) / I just knew /
You'd wanna know / So now I'm gonna touch you /
(I know you wanna) / Move your hands round and
round / Light me up don't turn me down / What you
want what you wanna do / In what I wanna do with
you so... / Go ahead and touch me / Touch me / (I
know you wanna) / (I know you wanna) / We don't
need to make a sound / (ooh-oooh) / I'm not
afraid of what you'll do / I wanna touch you too
/ Now go ahead and touch me / ... Touch me

All Wrong Long Gone

Well it's about time / Time for you to get out of
her life / Number 2 / It's the same for you /
Without love you're just alone in the night /
Sometimes / I don't understand / What makes you
think this is a man / The woman tries / With all
of those lies / She can show you how to someday
you'll stand / Well it's been... / All wrong /
Long gone / This is her time / It can't be all
wrong... We'll find a / Way now / To make it
somehow / We'll all be comin' tonight... / Come on
come on / Well it's about time... a long time /
That we've been singing this song / Maybe the
right time... about time / For you to sing along /
And it's my time... your time / I hear that song
in my ear / Well it's high time... for love / Been
a long long long long time hey / Number 1 / It's
about time / Time for you to get away from my
wife / Number 2 / Same goes for you / And all the
girls in your life / All wrong / Long gone / No
trust left in you... but / We'll find a way now /
To make it somehow / We'll all be comin' tonight...
/ Come on come on / Well it's about time... a
long time / That we've been singing this song /
Maybe the right time... about time / For you to
sing along / And it's my time... your time / I
hear that song in my ear / Well it's high time
your time / Been a long long long long time /
Sometimes / I don't understand / God knows what
makes you a man / Well it's about time / It's the
same for you / Without love you're just an ass /
We'll all be comin' tonight... / As a matter of
fact / Well it's about time... a long time / That
we've been singing this song / Maybe the right
time... about time / For you to sing along / And
it's my time... your time / I hear that song in my
ear / Well it's high time... your time... been a... /
A long long long long time

The Riff That Won't Quit

Got a Riff / That won't quit / And I've got an
axe to grind / Got a riff / That won't die /
Leave those chords behind / Got a Riff / That
won't quit / Let it show the way / Just need a
groove / To make it move / And turn it up all the
way / Gotta reach down inside your heart / If you
wanna play the blues / Find a riff / On the neck
/ It's not that bad so don't you fret / It's a
riff / That won't die / It makes me wanna cry /
Hear a riff / That won't quit / Can't stop
playing so here I sit / Pick and chose / Make the
move and / Hear what I'm gonna play... hey / Gotta
reach down inside your heart / If you wanna play
the blues / Got a Riff / That won't quit / Yeah
I've got an axe to grind / Got a riff / That
won't die / Leave those chords behind / Got a
Riff / That won't quit / Let it show the way /
Just need a groove / To make it move / And amp it
up all the way / Bridge/solo / Find a riff / On
the neck / It's not that bad so don't you fret /
It's a riff / That won't die / So leave those
chords behind / Got a Riff / That won't quit /
Let it show today / Sometimes I don't know /
Where to go so I / Turn it up all the way / Gotta
reach down inside your heart / If you wanna play
the blues / Got a Riff / That won't quit / Got a
Riff / That won't quit / Got a Riff / That won't
quit / Amp (turn) it up till it screams

Bet It All

When I'm playing for keeps / I play it hard /
Don't be showin' your hand / When you're seeing
the cards / On the table / You can always stand /
Bet it all... Get it On Get it On Get it On / Bet
it all... Get it On Get it On Get it On / This
could be the night / If you play it right / You
could live like a king / Lots of cash in sight /
You could win it all / You could take everything
/ Bet it all... Get it On Get it On Get it On /
What the hell... Get it On Get it On Get it On /
Bet it all... Get it On Get it On Get it On / What
the hell... Get it On Get it On Get it On / Get it
On / Get it On / Get it On / Get it On / Get it
On / Get it On / Get it On / Get it On /

You're the best thing / That ever happened to me

to me / All those things that I ever wanted / I
could never find ooo / After looking around my
life / It was you... the whole time / I can't
believe when all this happened / Just when I

your eyes / You might see what your looking for /
Coming right through the door yeah cause... /

to me / You're the best thing that ever happened

Twelve Gates

Somedays are better than others / Can't stand
some of my brothers now / Eyes closed cover my
ears / My thoughts lost in my fears / Maybe...
maybe a change of heart / Maybe it's just a
brand new start / Can't you feel it goin round /
A new day's comin comin down / Someways are
better than others / Those days sometimes I
wonder / What's the over under together / Twelve
gates are they locked forever / Maybe... maybe a
change of heart / Maybe it's just a new start /
Can't you feel it goin round / A new day's

Why would you just leave me alone / Can't even
 find my way back home / It's not so easy to stay
 alive / Sometimes you just gotta let it go / Then
 maybe someday you'll be true / Then come back
 tomorrow / Love... where is the love now / We can
 no longer feel it / Love... where has the love
 gone / Is there no more wrong or right / I just
 want to go back home / They were a lonely one at
 best / and they could hardly face the rest / I
 never thought that this was real / No one knows
 just how I feel / No more stars in sight /
 Love... where has the love gone / We can no longer
 feel it / Love... where has the love gone / Is
 there no more wrong or right / I just want to go
 back home / There's no more stars in sight /
 Love... where has the love gone / We can no longer
 feel it / Love... where has the love gone / Is
 there no more wrong or right / I just want to go
 back home / I just want to go back home / To go
 back home

long way to Worcester / When I saw you today /
The signs said ... Mr. Right / I somehow lost my
way / Well I ... thought we had a rhythm / We
could share in the night / Thought maybe some day
soon / We'd do what's right one / Riding out the
storm now / There's times when I should fly now
honey / Why do you distance yourself / From
anyone who cares... and / Why do you tell
yourself / I really shouldn't dare... now honey /
Why can't you open up? / That's all you've gotta
do / Maybe that's all it takes / It's really up
to you / Some how it matters / Outside your door
/ When late at night you want somebody / To touch
you to the core / Crawling up... inside yourself /
So no one can see / ... What you've kept inside /
A mystery / So I could be your lover / If I
could make you see... so tell me / Why do you
distance yourself / From anyone who cares... and /
Why do you tell yourself / I really shouldn't
dare... now honey / Why can't you open up? /
That's all you've gotta do / Maybe that's all it
takes / It's really up to you / So need to be all
alone... / All alone... All alone... All alone ... /
Where do you come off... when / Tonight, we could
fly now honey / Why do you distance yourself /
From anyone who cares... and / Why do you tell
yourself / I really shouldn't dare... now honey /
Why can't you open up? / That's all you've gotta
do / Maybe that's all it takes / It's really up
to you / Why / Why / I don't wanna be alone / All
alone... All alone... All alone ...

Better / I told be better / I got a big flat
screen at home / So you can see why my baby's
gone / I'll be better / Love could be better /
When she's out at night / Gonna cause a fight /
Cause she's always on the phone / Life could be
better / I can see where this is goin' yeah / I
don't need nobody saying / I've been out without
my baby / I don't want to lose her / Now she
hypnotizes me Yeah / When she gives me just one
glance / I wanna see her dancin again and again
with a Wham Boom Bang / A Wham Boom Bang / I
don't wanna lose her / Now she hypnotizes me yeah
/ When she gives me just one chance / I wanna see
her dance again and again with a Wham Boom Bang /
A Wham Boom Bang / Nothing but trouble / Yes, I'm
in trouble / She's got a big time hold on me /
I'm so in trouble can't you see / I'm on fire /
She's my one desire... Yeah / Everything that
went before / When she walks in through the door
/ she's just got that Wham Boom Bang / A Wham
Boom Bang

Cover Details: RICK's machine is checkered, obviously. It's numbered
360 to match his Dream Police badge. It's currently washing a load of
picks in preparation for crowd distribution. ROBIN's machine (DP
number 777) is white, emblazoned with stars, like his pants and his
Chucks. The ten knobs go to 100 each, because the man of 1,000 voices
requires such control. The Z in the window is in honor of Robin Taylor
(Z's his nickname). TOM's machine (DP number 714) is orange like his
amp. The knobs for his 12 string bass are currently in spin cycle.

DAXX's machine is metal flake gold like one of his many kits.
The door is a bass drum head donning the iconic logo of "the best
fucking rock band you've ever seen."
