DAVID LEE ROTH
SKYSCRAPER

You wanna feel GOOD yeah?
I got ideas for you!!
I wanna come take you
And a couple of
And some of them just don't
Don't nothing's gonna give a thing
Get a nice future, and a big behind
Might get lucky
Never mind
I hear legends do it
At the table?
Yes, I

Get to have it
Get to have it
Get to have it
And that's my bottom line ...!!

Skyscraper

Don't ever look down on

I can hear the sound
Of the earth far below
Put your high beams on
Step on my wing
I'm falling
And spinning, and tumbling
This is where
The beginnings of great things
Come to pass
So your necked out

Can you see the new
Creek the great the lighter?
Mama's little son's home
In every highway
I'm a skyscraper

Food, the electricity
Acoustic
Thing like a 6-12
Drumset
And the water looks on you
No water

Can I reach it now
The road up here often
Don't ever know
And he don't talk!
I'm a skyscraper

Damn Good

Don't ever look down on

Time only on
It starts as it should be
Here and gone
Seems to move so quickly

When we was happy
In our endless hours
It was forever
Might have on earth
Walk, we were laughing!
As we reached for the stars
And we had some
For what it was worth

Those were good times
Damn good times
Those were good times
Damn good times

Hey, take a look at this picture,
Can you believe that was you?
And where that standin' there in the
corner?
Not me!!
Ah, the crazy things we used to do

Turn, we was acting like a couple
of kids

Good to remember
You know that it is
I still feel it
Like the sun on my skin
Maybe that's better

Those were good times
Damn good times
Those were good times
Damn good times

So it's one for the money
But that don't make the show
Count to three and I'll be ready
To follow that lead (yes, I will)

I use it again
Yeah, and this one is sure
We got heaven right here on earth
Don't nothing like it
When you're ready for stars
And you grab one
For what it is worth

You can't tell me
That it's for having good times
Damn good times
I'm taking good times (again)
Damn good times

Hot Dog And A Shake

Don't ever look down on

I use it often and always
Cross the burger shop floor
I never seen a woman more so slow
I'm slow
Frenzied!

By the seat of my pants
Take a little of double duty
Same to god it make us
Late for the dance

Here's one for the road
One what for the real go getter
Silly stuff, you know just what it looks

A hot dog and a shake
That's what you're hungry for
A hot dog and a shake

My stomach's making noise
We're having dinner late
Can I grab the best
In a food city place
Just like any local of character
When the cream is made to the top
You find your real bottom line in
where you

Spring soap, cracks and pops, put

Give me one to go
Hey buddy, take a number
She can't see no
To what it looks

A hot dog and a shake
That's what you're hungry for
A hot dog and a shake

I'm more than just a writer
Of a hungry heart
Does me speak
I'm double parked

A hot dog and a shake
That's what you're hungry for
A hot dog and a shake

Stand Up

Don't ever look down on

She looks like Mavis

It's a good impression
From start to finish
Can I grab the best
In a food city place
Just like any local of character
When the cream is made to the top
You find your real bottom line in
where you

Spring soap, cracks and pops, put

Give me one to go
Hey buddy, take a number
She can't see no
To what it looks

A hot dog and a shake
That's what you're hungry for
A hot dog and a shake

I'm more than just a writer
Of a hungry heart
Does me speak
I'm double parked

A hot dog and a shake
That's what you're hungry for
A hot dog and a shake

What kind of fashion
In the fashion industry
In all the attention that
Need my name
In attentional observation
That look in her eyes
Is too good to be true...

So now you got a good reason
Yeah, but you just gotta want
It's what makes the world turn

Stand up, stand up
The more you do it
The less you fall down
Stand up, stand up
Put your head in the clouds
And your feet on the ground
Stand up, stand up
For the love of your life
You turn it up loud
And stand up, stand up

Ming

Don't ever look down on

These eyes burn holes
Into the stars night
And when her sleepy eyes
Are open wide
You can truly dance beneath her light
And I'd love to get to know the riddles
But the only truth and beauty
She I show you just
But not your loveless
Whisper of the coming food.

Ming

Cool upon the silent sea
Lies who the moon garden

Ming

Whispering in my dreams,
You must come back to me
