

therollingstonesabiggerbang

rainfall down

It was a filthy block of flats
Trash was on the floor
The stink was in my nose
Hinges off the door

She took me in her room
All was spick and span
Fixed me up a drink
turned down all the lamps

And the rain fell down
On the cold hard ground
And the phone kept ringing
And we made sweet love

Why do we live in this strange grey town?
They build it up and let it all fall down
Feel like we're all living in a battleground
Everybody's jazzed

Why do we live in this strange grey town?
The paint is peeling and the sky's turned brown
The bankers are wankers every Thursday night
they just vomit on the ground

And the rain fell down
On the cold grey town
And the phone kept ringing
And we made sweet love
And we made sweet love

Everybody's dreaming
Everybody's scheming

She cooked up some eggs
Then she made some tea
Kissed me on the cheek
Then I turned on her tv

It was all the usual crap
All the usual sleaze
For 10,000 quid
Some bimbo spilled
the beans

And the rain fell down
On the cold grey town
And the phone kept ringing
And we made sweet love
And we made sweet love

Watching the rain fall down

itwonttake long

And it won't take long to forget you
Time it passes fast
It'll all be over in a minute
You'll be in the past

You can lose the love of a lifetime
In a single roll
You can gain a fortune in an instant
Or you can lose your soul

And it won't take long to forget you
You know I'm never wrong
It'll all be over in a minute
And it won't take long

And it won't take long to forgive you
But it's hard to forget
Cause it seems like it's yesterday
The day that we first met

When you gave me a smouldering look
And you put out your cigarette
When I saw you come sauntering over
You wore a pale blue dress

Life is short
One look and its over
It comes as quite a shock
All I've got is some memories
Stuck in an old shoe box
It won't take long

And it won't take long to forget you
You know I am never wrong
It'll all be over by xmas
And it won't take long

And it won't take long
And it won't take long
And it won't take long
And it won't take long
And it won't take long

let me down slow

You look a little dressed up
You're acting way too smart
Your face a little bit flushed
For a walk in the park

And you're clutching your phone
As you walk in the door
And your smile's got a twist
You're looking so hardcore

If you've something to say
Don't be too direct
Cause I feel a little fragile
Don't hit the nail on the head

I said baby baby
Let me down real slow
I said baby baby
Let me down real slow

Oh no no no

There's a swish in your step
There's a gleam in your eye
Are you colouring your hair
With some new kind of dye?

But the first one to blink
Is the first one to fall
I don't want a confrontation
I got my back to the wall

Baby baby let me down real slow
Oh no no no
Baby baby let me down real slow
Oh no no no
Baby baby let me down real slow
I said let me stretch out in the afterglow
Oh no no

rough justice

One time you were my baby chicken
Now you've grown into a fox
Once upon a time
I was your little rooster
But now I'm just one of my cocks

So put your lips to my hips baby
And tell me what's on your mind
I know you still have that
animal attraction for me
Been a long long time

You're feeling loose and lusty
So if you really want me
It's rough justice
But you know I'll never
break your heart

It's rough justice on you
You're gonna have to trust me
It's rough justice
But you know I'll never break your heart

It's rough justice on ya
We're never done and dusted
It's rough justice
But you know I'll never break your heart

It's rough justice on ya
You think you've really sussed me
It's rough justice
But you know I'll never
break your heart

First time I saw you baby
You were springing like a young gazelle
Next thing I know
Way down the road
You're flying like a bat out of hell

It's rough justice on ya'
You're acting too disgusted
You're gonna have to trust me
But you know I'll never break your heart

I'll give you my position
Don't want no opposition
It's rough justice
But you know I'll never break your heart

shesawmecoming

She saw me coming
She saw me coming
She saw me coming

I didn't see a thing
I wasn't looking
I just walked into it
A sucker for her
I'm a Sucker for her
Thought I was so cool
She saw me coming
Boy did I get screwed

She saw me coming
She had me dead to rights
Her aim was stunning
I was lined up in her sights
She worked so fast
She didn't mess around
It was all over
Before the sun go down
Before the sun go down

She saw me coming
She saw me coming
She saw me coming
She moved in for the kill
She saw me coming
I was served up on her grill

She busted in
And she burglarised my soul
But now the bad news
She's out on parole

She wrote the opening
The middle and the end
What a cast of characters
Her lovers and my friends
The plot was twisted
There was only one result
She saw me coming
But the going going got too tough
She saw me coming
Yes she did
She saw me coming

Right on the grid, right on the grid
She saw me coming
I was a stupid jerk
She saw me coming
She was a piece of work
She must have tapped my phone
She saw me coming
I felt like I was cloned
She saw me coming
She had me on the ropes
She saw me coming
Took me for a dope
She saw me coming
Yes she did, yes she did
She saw me coming

backofmyhand

I hear a preacher
On the corner
Ranting like a crazy man
He says there's trouble
Trouble a comin'
I can read it like the back of my hand

I see love
And I see misery
Jammin' side by side
On the stand
In the wind
Some mournful melody
I can read it like the back of my hand

I see dreams
And I see visions
Images I don't understand
I see goyas
And paranoias
I can read it like the back of my hand
Read it like the back of my hand
Read it like the back of my hand
Oh yeah, oh yeah
Read it like the back of my hand

streetsoflove

You're awful bright, you're awful smart
I must admit you broke my heart
The awful truth, it's really sad
I must admit I was awful bad

While lovers laugh and music plays
I stumble by and I hide my pain
The lamps are lit, The moon is gone
I think I crossed the rubicon

I walk the streets of love and they're full of tears
And I walk the streets of love, and they're full of fears

While music pumps from passing cars
A couple watch me from a bar
A band just played the wedding march
And the corner store
Mends broken hearts
And a woman asks me for a dance
Oh it's free of charge
Just one more chance

I walk the streets of love
And they're full of tears
And I walk the streets of love for a 1000 years
Tell me now well I walk the streets of love, yeah
And they're drenched with tears

You had the moves
You had the cards
I must admit you were awful smart
The awful truth, it's awful sad
I must admit, I was awful bad

And I walk the streets of love
And they're drenched with tears
I walk the streets of love for a 1000 years
And I walk the streets of love
And they're drenched with tears

repeat

ohnoyouagain

Here you stand before me
Waiting to be kissed
You're a beauty, such a cutie
How could I resist
It's been a month of Sundays
Since we last have spoke
So much water, you've got daughters
I fell out the boat

Oh no, not you again
Fucking up my life
It was bad the first time
I can't stand it twice
Oh no not you again
I can't stand the pace
Once bitten twice shy
Let me out the race

The setting's so romantic
Love is in the air
All is perfect but I'm allergic
To your piercing stares
You look so cool and tempting
In your couture dress
You're addictive, as predicted
I'm nervous I confess

Oh no, not you again
Mashing up my life
It was bad the first time
You had me in a vice
Oh no not you again
I hear the inner shout
It was bad first time around
When you turned me inside out

Everybody's talking, showing off their wit
The moon is yellow, I'm like jello
Staring down your tits
My life flashes forward
Then it flashes back
I'm still dreaming
And I'm screaming
Get me off the rack

Oh no not you again
I can't stand the pain
I was burnt the first time
I can't deal again
Oh no not you again
messing up my life
Once bitten twice shy
I can't do it twice

Oh no not you again
Fucking up my life
It was bad first time around
I better take my own advice

thisplaceisempty

Walk right in
Sit on down
And make yourself at home
Come on baby
You're just like me
And you hate to be alone
It's funny how
Things go around
It's crazy but it's true

This place is empty
Oh so empty, it's empty without you

Come on in
Bare your breasts
And make me feel at home
You and me we're just like all the rest
And we don't want to be alone

It's funny how things go around
But go around they do
This place is empty, empty, so empty without you
Yeah, this place is empty, empty, so empty without you
It's empty without you

Come on, simmer down
And treat me sweet and cool
At least by now you have learnt
How to love a fool
It's funny how things turn around
It's crazy but it's true
This place is empty, so empty, so empty without you
This place is empty, so empty, so empty without you

biggestmistake

When love comes so late
It'll really hit hard
It slams through the gate
It'll catch you off guard
And everyone said
what a perfect love match
Cause she is so smart
She's a hell of a catch

I was drinking in love
Gulping it down
Drifting for months
On a billowing cloud
But after a while
I started to rebel
I'm back in the past
And I'm raising up hell

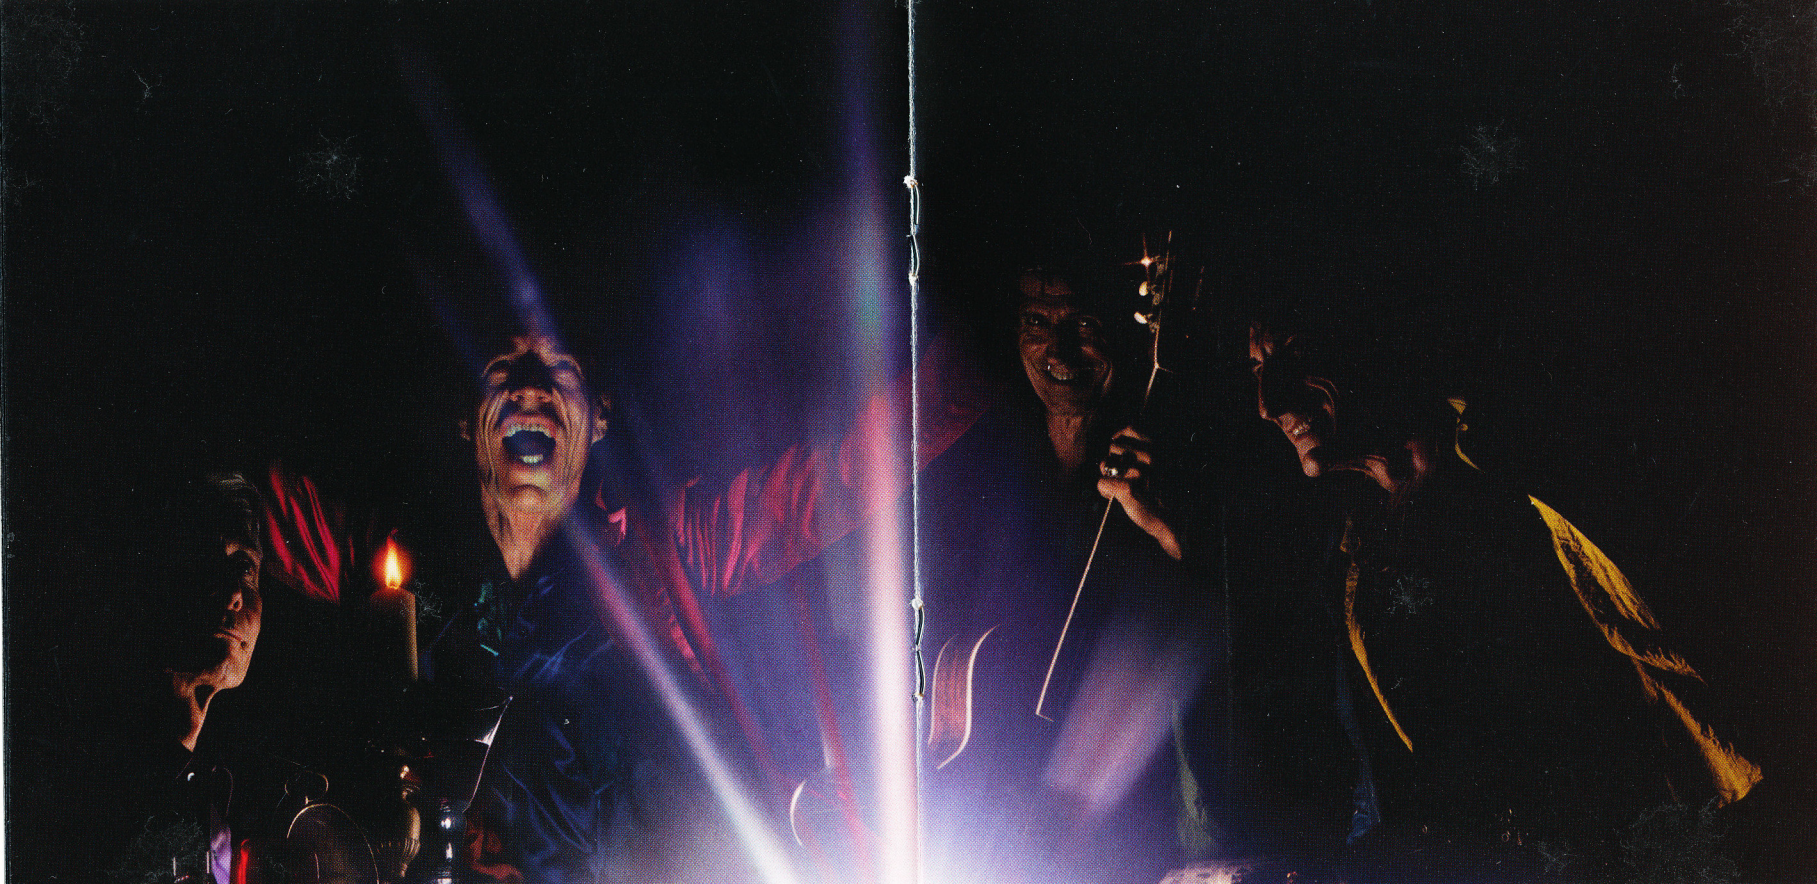

But I think I just made
The biggest mistake of my life
And I think I just made the biggest mistake of my life

We'd been living together for over a year
The harmony's perfect, it rang loud and clear
But then very slowly, my nerves start to fray
It's the little things baby
That's what they say
I acted impatient, acted unkind
I took her for granted
I played with her mind
She didn't deserve it, but it was too late
I walked out the door and left her to her fate

But I think I just made
The biggest mistake of my life
But I think I just made
The biggest mistake of my life

Now I'm down in a slump
And I'm eating alone
I'm rueing the day
With some friends on the phone
I never go out I'm becoming a grouch
I just watch the tv and I drink on the couch
If love comes again I'll be really surprised
I'll grab it real fast
Keep it right in my sights

*Cause I think I just made the biggest mistake of my life
Well I think I just made the biggest mistake of my life
Well I think I just made the biggest mistake of my life

sweetneocon

You call yourself a Christian
I think that you're a hypocrite
You say you are a patriot
I think that you're a crock of shit
And listen, I love gasoline
I drink it everyday
But it's getting very pricey
And who is gonna pay?

How come you're so wrong?
My sweet neo-con

It's liberty, for all
Democracy's our style
Unless you are against us
Then it's prison without trial
But one thing that is certain
Life is good at Halliburton
If you're really so astute
You should invest in Brown and Root

How come you're so wrong?
My sweet neo-con
If you turn out right
I'll eat my hat tonight

It's getting very scary
Yes I'm frightened out my wits
There's bombers in my bedroom
And it's giving me the shits
We must have loads more bases
To protect us from our foes
Who needs these foolish friendships
We're going it alone

How come you're so wrong?
My sweet neo-con
Where's the money gone
In the Pentagon

Yeh yeh yeh

laughinearlydied

And I have been travelling
But I don't know where
I've been missing you
But you just don't care
And I've been wandering
I've seen Greece and Rome
Lost in the wilderness
So far from home

I've been to Africa
Looking for my soul
And I feel like an actor
Looking for a role
I've been in Arabia
Seen a million stars
Been sipping champagne
On the boulevards

I'm so sick and tired
Trying to turn the tide
So I'll say my goodbyes
Laugh, laugh, I nearly died

I been out in India
But it froze my bones
I'm living for the city
But I'm all alone
But I've been travelling
But I don't know where
And I've been wandering
But I just don't care

I hate to be denied
How you hurt my pride
I've been pushed aside
Laugh, laugh, laugh, I nearly died

Been travelling far and wide
Wonder who's gonna be my guide
Been travelling far and wide
Wonder who's gonna be my guide

I'm living in a fantasy
But it's way too far
This kind of loneliness
Is way too hard
I've been wandering
Feeling all alone
I lost my direction
And I lost my home

I'm so sick and tired
Now I'm on the slide
Feeling so despised
When you laugh laughed
I almost died
Been travelling far and wide
Wonder who's gonna be my guide
(repeat to fade)

dangerousbeauty

In your high school photo
You look so young and naive
Now I heard you got a nickname
The lady with the leash
Was it funny on the midnight shift
I bet you had your fair share of stiffs
They were onerous orders
I gotta admit

Cause you're a dangerous dangerous dangerous beauty
It's so painfully plain to us
You were doing your duty

Who you got there in that hood
You look so fancy in those photographs
With your rubber gloves on
But you're a favourite with
the Chiefs of Staff
You're doing such a wonderful job
You're a natural at working with dogs
Keeping everyone awake at night
With a touch of the prods

You're a dangerous dangerous dangerous beauty
Disdainfully painfully beating up booty
You're a dangerous dangerous dangerous beauty
Beauty beauty

You're a dangerous dangerous dangerous beauty
If I was your Captain would you salute me
You're a dangerous dangerous dangerous beauty
Beauty
Are you one bad apple in a box
Dangerous
Dealing out electric shocks
I saw the gloves are coming off
If looks could be killing
I bet you would shoot me
You're a dangerous dangerous dangerous beauty
Painfully shamefully doing ya duty
You're a dangerous dangerous dangerous beauty

drivingtoofast

You can follow the road to the mountains
Or the track leading down to the beach
You can go where you like, go left or go right
It's you in the driver's seat

But if the rain starts swamping your windscreen
And the lights don't pierce through the night
And the trucks coming at ya
Just gonna splat ya
And the highway is blinding and bright

(You're) going out of your brain
Out of your mind
You're so deranged
You're going blind

You're driving too fast
You went straight past the curve
And you'll never go back
Driving too fast
The road is a blur
And it all turned to black
Driving too fast
Hang on to the wheel
I think you're gonna crash

You can see the freeway dividing
It's a pity you can't take them both
One leads to the valley or down
Some blind alley
The other runs down to the coast

Too many roads lead to nowhere
But how they twist and they turn
And dead end in a dusty old strip mall
Where your tyres all shredded and burned
You're going out of your brain
Out of your mind
Going insane you're going blind
You're driving too fast

You slid through the curve
And ya slammed through the flat
Driving too fast
Now you'll never go back

Driving too fast
Hang on for your life
I think you're gonna crash

Driving too fast
You went straight past the turn
And you'll never go back

Driving too fast
Yeh it's all turned to black

You're going out of your brain
Out of your mind
You're so deranged
You're going blind

Driving too fast
You slid through the curve
And you burnt up the track

Driving too fast
You're running out of gas
Driving too fast
Hang on to the wheel
I think we're gonna crash
Driving too fast

lookwhatthecatdraggedin

I know that you like to go out drinking
And you love to have a good time
You came in when I was drinking coffee
Having breakfast round about nine

I won't interrogate you
And I never will berate you
About your lifestyle
But where have you been
Lost weekend

What's that look on your face
You musta done the walk of shame
Your eyes are all red
Get ready for bed
Your hairs all over the place

Look what the cat dragged in
Don't you call me your friend
Get outta my house
With your dirty old mouse
Take yourself out again
Look what the cat dragged in
You take it right out again
Look what the cat dragged in
Take it right out again

Looking at the Sunday Papers up with all the latest
It was so quiet checking what was going on
In Syria and Lebanon
A bad fright
Ain't gonna criticise you
And I hate to ostracise you
You had a bad night
Where you been
Lost weekend

You look like you're totally spaced
Your breath's got a horrible taste
You look like a leper
dressed as Sergeant Pepper
Are you gonna throw up in my face

Look what the cat dragged in
Take it right out again
Get outta my house
With your dirty old mouse
You can take it right out again
Look what the cat dragged in
Look what the cat dragged in
Take it right out again
Look what the cat dragged in
Take it right out again

Look what the cat dragged in
Never do that my friend
Look what the cat dragged in
Look what the cat
Look what the cat
Look what the cat dragged in

infamy

You know you've got it in for me
I knew it right from the start
I'm still learning my lines baby
Since you've re-written my part
Why have you got it in for me
These things are not what they seem
You're living in a nightmare baby
And I mistook it for a dream
Yes just for a dream
I mistook it for a dream

You've got it in for me
You've got it in for me

I know you've got it in for me
You didn't miss a thing
It's you that wrote the song baby
But it's me that's got to sing
I knew you had it in for me
Where do you take it from here
We got along so famously
Until you made it clear
You made it very, very, clear
You made it abundantly clear

You've got it in for me
I knew it right from the start
You've already convicted me
Why are you hard on my heart?

You're right on my heart
So hard on my heart
You've got it in for me
You've got it in for me
All you do is wipe the floor with me
Why baby why
Right from the start

You've got it in for me
You've got it in for me
Right from the start
(repeat to fade)

Rough Justice Mick Jagger: Vocals, guitar.
Keith Richards: Guitar. Charlie Watts: Drums.
Ronnie Wood: Slide guitar. Darryl Jones: Bass.
Chuck Leavell: Piano.

Let Me Down Slow Mick Jagger: Vocals, guitar.
